

## Company Overview

Michigan Metal Coatings (MMC) is dedicated to the continued progression of our Speed, Quality, and Innovations which are essential to remain a proud leader in the metal finishing industry.

MMC is comprised of three facilities, totaling over 200,000 ft.<sup>2</sup> and operated by more than 170 dedicated employees. A devotion to producing a quality product for each and every customer has helped to establish MMC as an innovator in the coating industry.

## Quality Team

Our Quality Team ensures that all coated parts are inspected and approved before they leave our facility.

## Testing

We provide PPAP's, Salt Spray Testing, Process Certifications, Torque Tension Testing, K-Factor Testing, and Coefficient of Friction Testing.

## Equipment + Testing

The combination of our equipment, testing capabilities, and knowledgeable staff allows us to ensure the best quality of coating on each and every part.

## ACCREDITED LABORATORY | ISO & A2LA Accredited

MMC is dedicated to the continued progression of our speed, quality, and innovations which are essential to remain a Proud Leader in the Metal Finishing Industry.

## Quality Assurance Mission Statement

The quality system at MMC is designed to meet each and every customer's expectations by consistently producing a product of superior quality sooner than our competition at a competitive price.

## Equipment

- 4 - Salt Spray Testing Cabinets
- 2 - Moisture Analyzers
- ACT Cleanliness Tester
- 2 - CCT Chambers
- Fisher Scope
- Accelerated Weathering Cabinet
- Schatz Torque Tension Machine

## Testing Capabilities

- PPAP's
- Salt Spray Testing
- Process Certifications
- Torque Tension Testing
- K-Factor Testing
- Coefficient of Friction Testing
